# God, Sex *and the* Meaning *of* Life

*Christopher West*

**A**nd *what*, you may ask, do these topics have in common?

With humor and profound insight Christopher West demonstrates in this seminar how truly inseparable these realities are. Most people have heard the 'whats' of Catholic teaching, but very few have heard the 'whys'.

Many do not think Church teaching makes sense, especially in the realms of sex, gender, marriage and celibacy.

According to the Pope's biographer George Weigel, the Theology of the Body has been called "one of the boldest reconfigurations of Catholic theology in Centuries."

Drawing from the Pope's insights, Christopher West helps us to understand what the Church really teaches about sexuality and the dignity of each human person.
