Icon of Our Lady of Victory

## Greetings from our Bishops:

"I sense a need for many to understand the *Theology of the Body*. Pope John Paul II's timely treatment and expounding on this topic is foundational in light of understanding moral and ethical challenges in our lives today. Christopher West has done some good work in helping us understand this deep and rich contribution by the late Pope. I strongly suggest registering for the National Theology of the Body Conference to be held in Saskatoon June 5 to 7."

**Most Rev. Bryan Bayda, CSsR**  
 Bishop of the Ukrainian Catholic Eparchy of Saskatoon

"In his *Theology of the Body*, Pope John Paul II invites us to consider our creation in God's image as the foundation for the dignity of the human person. His reflections on the body and the person, as well as sexuality and marriage, are a new and truly enlightened teaching on how our incarnation can be a path to

giving praise to God as we share His divine love in our everyday human love for one another: man and woman; parent and child; young and old. May this conference bring about the blessing of a renewed understanding of our whole being—body, mind, soul and spirit—as called to holiness, a reflection of God's all holy communion of love."

**Most Rev. Albert LeGatt**  
 Bishop of the Roman Catholic Diocese of Saskatoon
